

CURRICULUM VITAE

Akhter Mohosina

Email: mohosina.23@gmail.com

Phone: +358 468009250

Nationality: Bangladeshi

Current affiliation: University of Oulu, Finland

1. Education

- Master of Science in Biomedical Engineering, University of Oulu, Finland (Completed: 30/06/2026). Final grade: 4.00/5.00
- Master of Information Technology, Jahangirnagar University, Savar, Bangladesh (Completed: 30/04/2016). Final grade: 3.94/4.00.
- Bachelor of Science in Computer Science, National University, Bangladesh (Completed: 30/12/2006). Final grade: Second Class.

2. Research Experience

Research Assistant, Faculty of Information Technology and Electrical Engineering, Software Engineering and Information Systems, SEIS, University of Oulu (August, 2025– May, 2026)

- Evaluating predictive performance of classical machine learning models for patient selection in Spinal Cord Stimulation (SCS) for chronic pain treatment
- Focus on model performance evaluation, risk stratification, and responsible data use in clinical contexts

3. Professional Experience

- Associate Product Manager, Noora Health Bangladesh (01/07/2022-30/10/2024).
- Medical Support Consultant, Noora Health Bangladesh (26/07/2020-30/06/2022).
- Program Officer, Marie Stopes Bangladesh (01/07/2019-30/06/2020).
- Information Management Officer, Marie Stopes Bangladesh (01/12/2015-30/06/2019).

4. Research funding and grants

- CSE/BME Summer Internship Scholarship, University of Oulu, 2025.

5. Publications and Research output

- **Akhter, M** & Isomursu, M. (2026)
Evaluating Predictive Performance of Machine Learning-Based Patient Selection for Spinal Cord Stimulation in Chronic Pain (Conference Abstract). In Digital Health and Wireless Solutions: Integrating AI, LLMs and Multimodal Health Data for Next-Generation Decision Support: Proceedings of the Second Nordic Conference on Digital Health and Wireless Solutions (NCDHWS 2026, **CCIS 3010**, pp. **729–731**). Springer Nature. <https://doi.org/10.1007/978-3-032-28819-6>
- **Akhter, M.** Hossain, M. S., & Ahmad, F. (2020).
Changes regarding SRHR knowledge and attitude of secondary institution teachers. Poster presented at the National Conference on Adolescent Health, Bangladesh.

- **Akhter, M.,** Hossain, M. S., & Ahmad, F. (2020)
Ensuring safe MR and MRM: Studies conducted in rural areas of Bangladesh. Conference proceedings (ISBN: 978-984-34-8662-2).
- **Akhter, M.,** Hossain, M. S., & Ahmad, F. (2019).
Family planning services and commodities for garment workers in Bangladesh: A situation analysis. International Conference on Global Public Health.

6. Teaching, training, and leadership experience

- Led technical support team of 94 tele-trainers during COVID-19 digital health response
- Managed 21-member healthcare support team at Noora Health
- Conducted onboarding and digital literacy training for hospital staff on mobile healthcare applications
- Currently designing and developing Kurkistus lääketieteen tekniikkaan (3 ECTS, 2026), an introductory biomedical engineering course integrating digital health, medical imaging, and hands-on Python exercises, University of Oulu.

7. Other education and training

- Object-Oriented Programming (.NET Track), BASIS, Bangladesh (200 hours)
- Leadership Training, Gaurav Singh & Co.lab (4 weeks)
- Adolescent Sexual Reproductive Health Rights (ASRHR) Training, Marie Stopes Bangladesh
- Survival and Beginners' Finnish Course, University of Oulu

8. Technical and Research Skills

Technical Skills

- Python (Machine Learning, data analysis)
- Clinical data processing and Digital health systems implementation
- Health informatics workflows and Electronic Document Management Systems

Research Methods

- Quantitative data analysis
- Digital intervention evaluation
- Health systems implementation research and Multidisciplinary collaboration

9. Language Skills

- Bengali (Mother tongue)
- English (C1 Listening; B2 Reading/Writing)
- Finnish (Beginner)
